

Join us for an evening of quality education

ABC for Managing UTI's, Bladder Pain and Urinary Incontinence

Date:
Wednesday, 14 September 2016

It is estimated that over 4 million Australians aged 15 years and over suffer from urinary incontinence (2011). With an increase in age, there is a higher prevalence of Overactive Bladder symptoms, urinary incontinence and UTI's. These conditions have a major impact on quality of life and can be very difficult to manage.

Time:
6.30pm (for a 7.00pm start) - 8.30pm

This session aims to increase the understanding of the patho-physiology of these conditions, to ensure accurate diagnosis, timely therapy, and improve patient outcomes.

Venue:
St Vincent's Private Hospital Brisbane
411 Main Street Kangaroo Point

Discussion includes:

- Diagnosing and managing Overactive Bladder Syndrome.
- Treatment options for Urge and Stress Incontinence.
- The role of Urodynamics.
- How to manage the difficult and persisting UTI's and Chronic Bladder Pain Syndrome.
- The role of the GP Specialist in Referral and Ongoing Management.
- Management resources and guidelines will be provided.
- Case presentations.

Event details:
Includes free buffet dinner and
guest speaker presentation
Parking is available on site

Speaker: *Dr Anthony J Kiosoglous*

MBBS(Hons) BSc(Hons) BMedSc FRACS(Urol)

Dr Kiosoglous is a Urological and Reconstructive Surgeon. He returned last year from a 2 year fellowship in London specialising in voiding dysfunction, pelvic floor medicine, pelvic oncology and adolescent reconstructive surgery. He is an elected state committee member of the Royal Australasian College of Surgeons, a senior lecturer at UQ (School of Medicine), clinical researcher, international presenter and journal reviewer, and a member of the Continence Foundation of Australia.
